## TRADITION...

The hewn-rock crypt into which Our Lord Jesus Christ was laid had been provided "before need" by Joseph of Arimathea for himself. The custom of entombment, which has been prevalent among Christians since that time, was for centuries considered the prerogative only of the rich and famous.

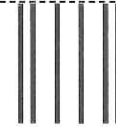

**Imagine ... An Everlasting Memorial To Your Family Name ...  
At A Cost Comparable To Traditional Ground Burial**

This program offers families an ideal opportunity to investigate the many advantages of above ground mausoleum entombment. Too often this important family responsibility is neglected and our loved ones are left with unnecessary emotional and financial hardships, so we urge you to consider this information carefully. Most families are pleasantly surprised at how favorably entombment in the mausoleum compares to the increasingly expensive cost of ground burial.
